

Alice Dønns

Born: 21.12. 1948

In my professional life I have worked with textiles as a Purchasing and Product Development Manager, thus having aspects of design and color as one of my main interest throughout my life.

This interest in design and color encouraged me to start taking painting courses, and since 1988 I have used all my spare time painting; both at home, and in my country cottage in Odsherred.

My inspiration comes from the visual impression I get from color and light. My paintings are abstract with a twist of something figurative, and leave plenty of room for interpretations.
