-

ABOUT MY WORK:

My works are arbitrary compositional arrangements of geometric shapes supporting colour sequences that engage and entertain the visual senses through the patterns and rhythms created. I work mainly in water based mediums on papers, but also acrylic on canvas, and am developing three-dimensional interpretations of these compositions.

ABOUT MYSELF:

I am married, have three children and grandchildren, and live and work in my house/studio in N France, N Thailand, and SE England each year. I have taught art & design for twenty seven years in the UK, and in Papua New Guinea.
