

Anne Kryger

I have worked with clay in various forms for 25 years. The past several years, I decided to work exclusively in stoneware clay. I alternate between working at the turntable and modeling. Often, I will base in bowls, vases or jars and transforms it then something sculptural.

The decorations depends on the type stoneware clay, I choose to work with. Is it a golden type of clay, I use mostly earthy colors as decoration, and it is a light clay, I use mostly bright pastel colors inside.

Inspiration Sources: Children and young at heart, colorful people and good stories.
