

Martijn Kips

In 1964 I was born in the village of Graauw just next to the village church. This church with its beautiful murals has been a great inspiration to me.

In my youth, I was particularly fascinated by Escher and Dali. These two artists have always stimulated my imagination and caused much inspiration.

In 2007 I completed my education in art-oil painting at the "Stedelijke Academie voor Schone Kunsten" in Sint. Niklaas (Belgium). My current work consists mainly surrealistic and symbolic representations.
